Perspektive(n) Afrika(s)

Information for your profile on the Africa Map

Exile Kulturkoorination is a non-profit organization for intercultural and international projects in the fields of education and culture. With our work we aim to strengthen the diversity of global perspectives in education and culture.
For this purpose, we support, advise, and connect engaged citizens, institutions and initiatives and encourage intercultural discourses in society within the framework of joint effort relating sustainable development.

Within the project 'Perspectives of Africa' we want to create an interactive map of Africa, where global organizations, like yours, have the opportunity to present their work.
The goal is, that the diverse engagement of organizations, working in the sense of the Sustainable Development Goals (SDGs), become more visible.

The project is intended as an educational project and the interactive map is used especially for the work with pupils. The aim is to present the work of African organizations on the UN World Development Goals to decrease stereotypes. The map should help to show the diverse work being done in different African countries in the sense of the SDGs. Furthermore, we hope that the map will contribute to national and international networking.

We would be grateful if you would participate in this project. To do so, we kindly ask you to fill out the following document. Please send it with a file of a logo and/or photo to orga@exile-ev.de. We will then add your profile to the Africa Map and link it to your stated Sustainable Development Goals and your organization's location.

We will send you the link to the map as soon as it is available online (estimated for Summer 2022).

☐ I agree that the data provided below, may be published on the website of Exile Kulturkoordination e.V.

Name of your Organization

Country and City

URL website

E-Mail adress

Describe your organization and/or Project(s)

Which development goals best describe the personal goal of your work? You can get all the information about the Sustainable Development Goals (SDGs) on the United Nations website: https://sdgs.un.org/
